

MEMORANDUM

Date: August 29, 2007

To: Northeast Florida Regional Council Board of Directors and Interested Parties

From: Brian D. Teeple, Chief Executive Officer 

Re: NEFRC Web site Enhancements

We are pleased to announce that the Northeast Florida Regional Council's Web site, www.nefrc.org, now features online agendas, full board packets, and meeting minutes for your ease of access and review. This new technology also includes an "interactive agenda" which allows site visitors to immediately access specific portions of the Board Agenda at the click of a mouse.

These items have been accessible via the Web site for several months while we piloted new software and tested the reliability and accuracy of the product and we now announce the official launch of these enhancements.

The Web site improvements are in response to our continuous efforts to provide accurate and up-to-the-minute information to all interested parties within the Northeast Florida Region and beyond. These efforts also exemplify our concern with fiscal responsibility as the new online access will eliminate the excessive monetary and natural resources cost of printing "hard copies" of all of the Board material. Going forward, we will no longer arbitrarily provide paper copies of this information. However, we *will* provide you notice by email of all posted materials.

If you wish to receive notice of these materials, please submit your e-mail address to Angi Giles at ajiles@nefrc.org.

Thank you for allowing us the opportunity to expand our technology while simultaneously being responsible stewards of our natural resources as we continue in our vision of *"Bringing Communities Together to Advance the Regional Agenda."*
